

Industrial Oils and Greases

A drop of oil....

the **RIGHT** formula, delivered the **RIGHT** way,
can save you thousands of dollars.

The Correct Lubrication Formula = Money Saved!

1. Reduce downtime
2. Increase machine efficiency
3. Lower maintenance costs
4. Increase machine lifetime

Ge-i-Lube products are 50 years strong.

- High Temperature Oils
- Hydraulic Oils
- Gear Oils
- Heat Transfer Oils
- General Purpose Greases
- High Temperature Greases
- Lubrication Programs
- Custom Formulations

Talk to us about the *RIGHT* industrial lubricant.

Ask us about applications, surveys and programs for textiles, paper, plastics, nonwovens and many other industrial uses.

Our custom formulations are scientifically manufactured to retain their lubricating value for longer periods.

Industrial Oils

Gear Oils

- Mineral Oils GL68 - GL1000
- Multi-grade Oils 80/90 - 90/140
- Synthetic GLS 68 - 680
- CoGlycol 68 - 460

Hydraulic Oils

- Mineral AW32 - AW220

Shear Oils

- SO22 - SO68

Tenterchain Oils

- Mineral NKA Series
- Synthetic SNKA Series (up to 500° F)

Heat Transfer Oils

- Thermosyn M
- Thermosyn S
- CT Series (350° C)

Compressor Oils

- CSO Series (PAO)
- Synco D Series (Diester)

Custom Blended Lubricants

Oil Analysis

Industrial Greases

#2NLGI

- Synshield - Synthetic
- WH2 - Lithium Complex
- TX - Aluminum Complex
- GP - General Purpose

Specialty Greases:

- Krytox XHTS (400-575° f)
PTFE Lubricant

Fluid Greases

- MLL
- MLL00
- MLL000

Ge-i-Lube is approved by various machinery manufacturers including:

Dornier, Picanol (GTP), SMIT (Nuova Pignone), Staubli,
Krantz, Morrison, Artos and Babcock
